Deception Script

So. . . it turns out that your discussion partner never showed up.

Normally, the discussion is the last part of the lab session, but we did this study last year, and unfortunately we had enough no-shows that we knew we needed a backup plan going forward.

So instead of having the discussion, the last part of your lab session will be this extra portion of the survey I'm going to pull up on the laptop.

Debriefing Checklist

1. Debriefing form
2. Reveal the deception
3. Did they suspect?
4. When?

   1. during the stimulus
   2. during the proctor lie
   3. during the final survey

5. Ask them to keep our secret
6. Offer informed consent form
7. Allow questions
8. Compensate them
9. Thank them
